CEO Sigurjón Þ. Árnason:

"Landsbanki reports a very good performance in Q2 2007. Its after-tax profit was ISK 12.5bn (€146m), and total H1 profit is ISK 26.3bn (€300m) and ROE 39%. Fees and commissions for the first six months of this year totalled ISK 19.5bn (€223m), making the two first quarters of this year the best ever in the bank's history. Landsbanki's overseas operations now account for 65% of the bank's total fee and commission income, compared with 55% during the first six months of last year. During the year to date, we have made considerable investment in further developing the group's international operations, for instance in Norway, Finland and the US. We have also expanded the activities of Landsbanki's London Branch and the acquisition of Bridgewell Securities will strengthen the bank's position in the UK market. All operating divisions are performing well and returning a good profit, reflecting Landsbanki's stability and diversified operations."

CEO Halldór J. Kristjánsson:

"It is gratifying to see Landsbanki's strength reflected in its results for the first six months of this year. The bank's funding pillars have been steadily reinforced by the rapid increase in its deposits, which have grown by 74% or over ISK 500bn (€5.9bn) year to date. The deciding factor here has been the highly successful Icesave on-line savings programme in the UK, which currently has around 100,000 customers and GBP 4bn in deposits. Deposits currently represent 76% of customer lending, compared to 47% at the beginning of this year and 34% at the beginning of the previous year. For Landsbanki, the change is highly significant, in particular in view of potential volatility on international financial markets. Building on the success of the first half of 2007, and the underlying solid core performance, the outlook for 2007 as a whole is bright."

Landsbanki's after-tax **profit** in H1 2007 was ISK 26.3bn, compared to a profit of ISK 20.4bn in H1 2006.

	2007 H1	2006 H1	Change
Operating revenues	58.6	46.1	12.5
Operating expenses	32.3	25.7	6.6
Profit	26.3	20.4	5.9

Landsbanki's **net operating revenues** amounted to ISK 58.6bn in H1 2007 as compared to ISK 46.1bn the previous year and have increased by 27%.

The Bank's **net interest revenues** were ISK 24.4bn, as compared with ISK 22.6bn in H1 2006. The ratio of interest spread to average capital position was 2.0% compared to 2.7%

for the first 6 months of 2006. The higher interest margin in H1 2006 can be attributed to the great impact of inflation on the bank's positive indexation balance.

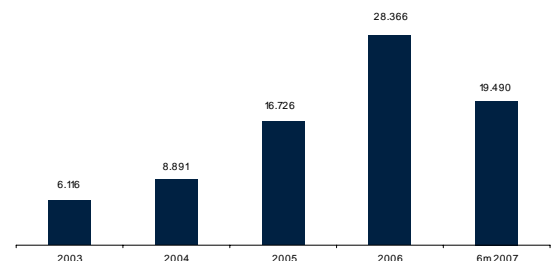

Interest spread

Net fee and commission income overseas 65%

Landsbanki's **net fee and commission income** have increased by 41%, amounting to ISK 19.5bn in H1 as compared to ISK 13.8bn in H1 2006. Net fee and commission income overseas were ISK 12.8 bn or 65% compared to ISK 7.6 bn or 55% for H1 in 2006.

Fees and commissions

The Bank's **trading and investment income** in H1 2007 amounted to ISK 14.8bn compared to ISK 9.7bn during the same period in 2006.

Net revenues from operations outside of Iceland amounted to ISK 27.5bn during the first six months of this year, as compared to ISK 20.6bn for the same period of the previous year, and comprised 47% of total group income.

The group's **operating expenses** in H1 2007 totalled ISK 26.1bn, making its cost-income ratio for the period 44.5%.

Impairment on loans and available-for-sale financial assets in H1 2007 amounted to ISK 3.0bn, as compared to ISK 3.2bn in H1

2006. Impairment as a ratio of loans and receivables at the end of the period was 0.33% on an annual basis.

Q2 2007 compared to Q1 2007

The Bank's after-tax **profit** amounted to ISK 12.5bn in Q2 of this year, compared to ISK 13.8bn in Q1 2007.

Balance Sheet

Total assets of the group amounted to ISK 2,597bn at the end of June 2007, rising from ISK 2,173bn at the beginning of this year, an increase of ISK 424bn or 20% during the year. After adjusting for ISK appreciation, the real balance sheet growth was 27%.

Amounts due from financial institutions amounted to ISK 278bn, as compared to ISK 216bn at the beginning of this year.

Loans to customers totalled ISK 1,568bn at the end of June 2007, up 9% from ISK 1,438bn at the beginning of the year. Allowing for the impact of ISK appreciation and inflation, the real increase in customer lending is 16%.

Total provisions for **credit losses** amounted to ISK 18.4bn or 1.09% of total loans and guarantees at the end of June 2007. Provisions for credit losses do not reflect actual write-offs, but amounts set aside to cover calculated future credit losses. When and if loans are not recovered, the provisions for credit losses are reduced by the unrecoverable amount.

The group's **trading assets** were ISK 540bn at the end of June 2007 as compared to ISK

344bn at the beginning of the year. This includes market bonds and trading equities, as well as derivatives that are in the money. Trading equities amounted to ISK 57.6bn at the end of June 2007, ISK 49.2bn were listed equities and ISK 8.4bn unlisted equities. Domestic equities amounted to ISK 32.9bn and foreign equities to ISK 24.7bn as of the end of June 2007.

Other financial assets at fair value through profit and loss amounted to ISK 18.4bn at the end of June 2007. These figures include only equities. Of the ISK 18.4bn exposure, ISK 16.1bn are listed equities.

Non-current assets and disposal groups held for sale totalled ISK 3.4bn at the end of H1, compared to ISK 21.3bn at the beginning of 2007. The decrease is the result of the bank's sale of the real estate company Landsafl.

Total assets under management amounted to ISK 478bn at the end of June 2007, rising from ISK 377bn at the beginning of this year, an increase of 26.8% during the year. At the same time, total assets in the group's custody amounted to ISK 1,918bn compared to ISK 1,751 at the beginning of this year.

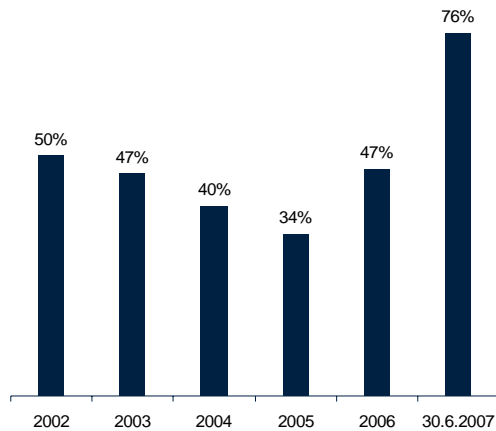

Liabilities and equity

Deposits 76% of loans to customers

The group's **total deposits** amounted to ISK 1,349bn as of the end of June 2007. Of this amount, ISK 1,187bn were customer deposits, which increased from ISK 683bn at the beginning of this year, or by 74% during the 6 months period. Landsbanki's customer deposits overseas amounted to ISK 867bn at the end of June 2007, rising from ISK 417bn at the beginning of this year or by 108% during H1 2007.

The ratio of customer deposits to customer loans was 76% at the end of June 2007, compared to 47% at year-end 2006.

Deposits as a ratio of total lending

Total borrowing at the end of June 2007 amounted to ISK 782bn, as compared to ISK 1,015bn at the beginning of 2007. The decrease is due both to ISK appreciation and maturities during H1.

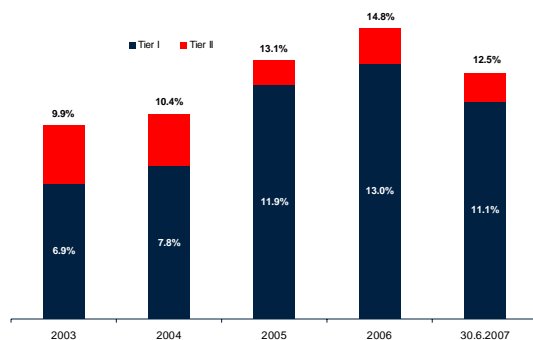

Subordinated loans amounted to ISK 78bn at the end of June 2007, compared to ISK 90bn at the beginning of 2007, with the decrease due entirely to ISK appreciation.

Equity ratio (CAD) 12.5%

The group's **equity** was ISK 161bn at the end of June 2007 compared to ISK 144bn at the beginning of the year. The change in equity is the result of profit during the period, transactions in own shares and dividends.

The group's equity ratio (CAD) was 12.5% at the end of June 2007, of which 11.1% was Tier 1 ratio.

Retail Banking includes the parent company's branch network, Heritable Bank's commercial banking operations, SP Fjármögnun and Landsbanki Guernsey Ltd. The segment's pre-tax profit in H1 2007 was ISK 3.5bn, compared to a profit of ISK 3.8bn in H1 2006. The segment's total assets amounted to ISK 444bn at the end of June 2007.

Corporate Banking includes the parent company's Corporate Banking division, including its lending by its London and Amsterdam branches, Heritable Bank's corporate business and the corporate banking activities of Landsbanki Luxembourg SA. Corporate Banking's pre-tax profit amounted to ISK 10.8bn in the first half of this year, as compared to ISK 8.0bn for the same period of the previous year. The segment's total assets were ISK 935bn at the end of June 2007.

Investment Banking is comprised of the parent company's Securities and Treasury division, both in Iceland and Continental Europe, plus the subsidiaries Teather & Greenwood, Kepler Equities and Merrion Capital. This division includes securities brokerage, corporate advisory, FX and

derivative trading, the Bank's treasury and debt management and proprietary bond and equity trading. The pre-tax profit of the segment amounted to ISK 15.7bn in the first half of this year, as compared to ISK 12.7bn for the same period of the previous year. The division's total assets amounted to ISK 895bn at the end of June 2007.

Asset Management and Private Banking includes the parent company's Asset Management division, Landsvaki hf. and Landsbanki Luxembourg SA., asset management and private banking activities. Pre-tax profit in Asset Management and Private Banking during the first six months of 2007 amounted to ISK 1.1bn, as compared to a profit of ISK 1.6bn in H1 2006. The division's total assets amounted to ISK 313bn at the end of June 2007.

Funding

Due to a continued inflow of overseas retail deposits, Landsbanki's capital market issuance continues to be limited. Overall debt issuance in the quarter was EUR 790 million, one in the amount of EUR 500 million, bringing total issuance in the first half of the year to EUR 845 million. At the same time, maturities amounted to EUR 1,445 million, and another EUR 1,219 million are due in H2 2007. All refinancing for 2007 was completed in 2006.

In May, Landsbanki launched its first senior public EMTN issue since October 2005, fixed-return 5 year notes totalling EUR 500 million, managed by Credit Suisse, RBS and SG CIB with DZ Bank and Bayern LB as co-lead managers. Although highly oversubscribed, due to the Bank's strong liquidity position, the transaction was kept at the initial size EUR 500 million.

Credit default spreads on Landsbanki's debt decreased during Q2, reaching a record low of +18 bps at the beginning of June. Because of volatility on international financial markets, Landsbanki's credit default spreads have increased slightly in the last few days. Landsbanki may seek further funding in H2 2007, given the right market conditions, the bank's rapidly growing deposit base means this is by no means a certainty.

Core earnings

Pre-tax ROE of 26%

Landsbanki's core earnings before tax amounted to ISK 18.0bn in the first quarter of

this year, as compared to ISK 28.8bn for the whole year 2006. Return on equity (ROE) based on core earnings for H1 of 2007 was 26%. A summary of performance and core earnings for H1 2007 as compared 2006 are shown in the following table (amounts in mISK):

	2007 6m	2006 12m
Profit before income tax	29,509	44,694
Adjusted net gain on equity, securities and FX	(14,754)	(19,568)
Adjusted net interest revenues	3,209	3,640
Core income before income tax	17,963	28,765
Core Cost Income ratio	55%	53%
Core ROE before tax	26%	26%

In calculating the bank's core earnings, trading gains on equities of all types, as well as trading gains on bonds and FX, are deducted. The interest rate margin is increased accordingly to reflect the cost to the group of financing tied up in bond and equity positions. Nonetheless, maintaining a certain level of equity and bond exposures remains part of the bank's strategy and active risk management.

Calculations of the bank's core performance do not take into consideration the negative impact of the group's positive indexation balance. Index-linked assets exceeded its index-linked liabilities by ISK 150bn on average during H1 2007. The bank finances the difference on non-indexed interest rates. As a result of the interest and inflation levels in H1 2007, Landsbanki's losses on its indexation balance amount to an estimated ISK 1.7bn.

Outlook

The outlook for Landsbanki's operations is generally positive. In recent quarters, the Bank's core earnings have been increasing steadily and its underlying ROE before taxes around 25%.

The changed composition of its funding has reinforced the group's balance sheet; in recent months the contribution of customer deposits to total group funding has surged. Deposits are now equivalent to 76% of Landsbanki's total lending, as compared to 34% at the beginning of 2006 and 47% at the beginning of this year.

The group's income streams are well diversified, both geographically and by operating division.

Landsbanki's credit risk is based on an asset portfolio which is well-diversified both in terms

of sector and market region. The bank's moderate equity exposures comprised 2.9% of total assets as of the end of June.

Landsbanki's capital adequacy is very strong and currently well above the average of banks in the Nordic countries, the US and the UK.

The economic situation on those markets where Landsbanki is active is generally favourable and its management is confident that the bank is well positioned to continue to deliver a high ROE. Landsbanki's target for after-tax ROE is 15-17%.

It should be borne in mind, in assessing the outlook for financial enterprises, that their operations are highly dependent upon various external factors, such as economic developments in Iceland and abroad, price level and currency fluctuations, and developments on domestic and foreign financial markets.
