## Other aspects of Landsbankinn's operations

---

- » In May 2014, Landsbankinn concluded an agreement with the Winding-up Board of LBI hf. on amendments to the terms of secured bonds as provided for in an agreement from December 2009.
  - » The main changes include pushing the maturity date of the bonds from 2018 to 2026, abolishing onerous provisions on dividend payments and reducing collateral coverage requirements.
  - » This agreement is conditional upon LBI hf. being granted certain exemptions from the Foreign Exchange Act. Landsbankinn considers it urgent to settle the matter promptly to reduce uncertainty about the foreign currency refinancing of Landsbankinn.
  - » Extending the maturity of the bonds significantly reduces risk to the national balance of payments in coming years and simultaneously increases the possibility of taking effective steps towards the lifting of capital controls.
- » Landsbankinn listed a Euro Medium Term Note (EMTN) programme on the Irish stock exchange in August. This is an EMTN programme that will allow Landsbankinn to issue notes abroad in the equivalent amount of up to EUR 1 billion in various currencies and at fixed or floating rates. The Bank aims to tap into the EMTN programme in several steps for the purpose of fully discharging the debt owed to LBI hf. by October 2018. An extension to the maturity of the LBI bonds, if it becomes effective, will make it easier for the Bank reach this goal at more favourable terms.
- » Landsbankinn is currently engaged in long-term strategy development work, aided by an international consultancy firm. These efforts focus on improving service to customers, increasing efficiency by simplifying work processes and reducing costs, optimising the balance sheet and other strategic issues. The aim is to finish this work by the end of Q1 2015.
- » Work on correcting illegal exchange rate indexed loans and implementing solutions according to the government's debt adjustment plan is coming to an end.
