Following is an extract for the Condensed Consolidated Interim Financial Statement for the first three months ended 31 March 2015 displaying the endorsement of the Issuer's Board of Directors and the CEO.

The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. (the "Bank" or "Landsbankinn") for the first three months of 2015 include the Bank and its subsidiaries (collectively referred to as the "Group").

Landsbankinn was founded on 7 October 2008. The Bank is a leading bank in the domestic market and offers a complete range of financial products and services to personal, corporate and institutional customers.

Operations

Consolidated profit amounted to ISK 6,412 million for the first three months of the financial year 2015. Consolidated total equity amounted to ISK 233,860 million and total assets amounted to ISK 1,172,380 million at the end of this period. The capital adequacy ratio of the Group, calculated according to the Act on Financial Undertakings, was 26.7% at the end of the first quarter of 2015.

On 29 March 2015, the Bank took over all assets, liabilities and operations of Sparisjóður Vestmannaeyja ses., the local savings bank in Vestmannaeyjar, in accordance with the decision of the Financial Supervisory Authority (FME) on the merger of these two entities. The activities and operations of the savings bank are currently being integrated into that of Landsbankinn. The acquisition price of the savings bank was ISK 332 million, subject to certain conditions. As a consideration, previous owners receive shares in Landsbankinn.

All the material cases that were reported open and not concluded at year-end 2014 in the litigation section of the Group's Consolidated Financial Statements for the year 2014 are still open at the end of the first quarter of 2015. Some of these cases may have a greater impact on the amounts disclosed in the Group's Financial Statements than others. The cases of greatest importance relate, on the one hand, to the recalculation of foreign currency indexed loans and, on the other, to the inflation-indexation of financial obligations. In the former, the comparative position between the Bank against the customer and the disruptive impact on the corporate customer's financial position are being disputed. In November 2014, the Bank was acquitted in two separate cases at the district court level. In the latter, the legitimacy of information disclosure by the Bank and consumer price indexation provisions of financial obligations is being disputed. The EFTA Court submitted its advisory opinion on the latter, leaving final judgment in the hands of the national courts. In February 2015, the Reykjavik District Court, in two comparable cases, rejected the argument that provisions on consumer price indexation of loan agreements should be declared null and void.

Risk management

The Bank's core operations are sound and have been improving in recent years. Processes are being revised on a continuous basis to improve risk management, efficiency and customer relationship management. The ratio of non-performing loans continued to decrease during the first quarter of 2015 while the borrower credit quality of performing loans is unchanged. The Bank's liquidity position remains strong and market risk has been reduced significantly as a result of the sale of equity positions.

Outlook

Statistics Iceland estimates a 1.9% growth in gross domestic product (GDP) in 2014. Conversely, national expenditure increased by 5.3%, thereof consumption by 3.9% and capital formation by 13.7%. There is a strong consensus amongst forecasters for robust growth in 2015: Landsbankinn Economic Research expects 4.3% GDP growth in 2015; the Central Bank of Iceland forecasts 4.2%; and Statistics Iceland 3.8%.

Other matters

On 25 March 2015, the Bank paid dividends for the operating year 2014 to its shareholders in accordance with a resolution passed at the Bank's Annual General Meeting on 18 March 2015. Dividends amounted to ISK 23,687 million, equivalent to ISK 1.00 per share for the year 2014, or 80% of net profit for the year 2014.

The Bank's 2015 Annual General Meeting authorised Landsbankinn to acquire up to 10% nominal value of own shares. This authorisation is valid until the AGM of the Bank 2016. Allocation of own shares purchased based on this authorisation is subject to the approval of a shareholders' meeting. The minimum and maximum amounts the Bank is authorised to pay for each share shall be equivalent to the ratio of equity, held by the Bank's shareholders, to share capital as disclosed in the most recent annual or interim financial statement published prior to the purchase of own shares.

Following the conclusion of an agreement between Landsbankinn hf. and the Board of Directors of Sparisjóður Vestmannaeyja ses. dated 28 March 2015 and the decision of the Financial Supervisory Authority (FME) on the following day on the merger of these companies, a shareholders' meeting of Landsbankinn hf. was convened on

Monday, 4 May 2015. The shareholders' meeting agreed to authorise Landsbankinn hf. to allocate own shares as a consideration for the acquisition of other Icelandic financial undertakings or the merger of such companies with the Bank.
