Following is an extract for the Condensed Consolidated Interim Financial Statements for the nine months ended 30 September 2017 displaying the endorsement of the Issuer's Board of Directors and the CEO.

The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. (the "Bank" or "Landsbankinn") for the nine months of 2017 include the Bank and its subsidiaries (collectively referred to as the "Group").

Landsbankinn hf. was established on 7 October 2008. The Bank is a leading provider of financial services in the domestic market, offering a comprehensive range of financial products and services to individuals, corporate and institutional customers.

Operations

Consolidated profit amounted to ISK 16,841 million for the first nine months of the financial year 2017. Consolidated total equity amounted to ISK 243,132 million and total assets to ISK 1,198,958 million at the end of this period. The total capital ratio of the Group, calculated according to the Act on Financial Undertakings, was 26.8% at the end of the third quarter of 2017.

On 25 October 2017, the international rating agency S&P Global Ratings upgraded Landsbankinn's credit rating from BBB/A-2 to BBB+/A-2 with a stable outlook. The stable outlook reflects S&P's expectation that domestic economic development will continue to remain supportive and that Landsbankinn will maintain very strong risk-adjusted capitalisation.

Risk factors

Loans to customers have increased so far this year. Despite increased lending, credit quality has been stable during the first nine months of 2017 and there is a negligible increase in the overall credit risk profile of the Bank's loan portfolio. Loan impairments are expected to remain low because of ongoing efforts to improve credit quality. The Group's Liquidity coverage ratio (LCR) was 158% and the Group's net stable funding ratio (NSFR) in foreign currency was 184% as at 30 September 2017. The Group's liquidity and funding ratios are above minimum regulatory requirements and within the parameters of the Bank's risk appetite.

Outlook

In its revised forecast dated last May, Landsbankinn Economic Research (LER) assumes that economic growth will be 6.7% this year, then decrease to 3.5% next year and 2.6% in 2019. In the last few months, inflation has been lower than LER anticipated even though the Icelandic *króna* (ISK) has been weaker. This can largely be explained by increased competition in the retail market, which has impacted the prices of various goods more than generally expected. Last May, LER forecast that inflation would exceed the inflation target by a small margin in Q4 2017 and Q1 2018. The probability of that happening has diminished considerably and LER's current forecast holds that inflation will remain below target in the next quarters.

The Bank continues to focus on the execution of its strategy to ensure sustainable, long-term profitability. Profit in Q3 of 2017 is lower than in the same quarter of the previous year; however, profit for the first nine months of 2017 increased marginally year-over-year and the outlook for the full year remains positive.

Statement by the Board of Directors and the CEO

The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the nine months ended 30 September 2017 have been prepared on a going-concern basis in accordance with International Financial Reporting Standards as adopted by the European Union.

In our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. give a true and fair view of the consolidated financial performance of the Group for the first nine months of 2017, its consolidated financial position as at 30 September 2017 and its consolidated cash flows for the first nine months of 2017.

Furthermore, in our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. describe the principal risks and uncertainties faced by the Group.

The Board of Directors of the Bank and Chief Executive Officer hereby endorse the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the nine months ended 30 September 2017.
