Report of the Board of Directors and the CEO

Landsbankinn is a leading provider of financial services in Iceland, offering a comprehensive range of financial products and services to individuals, corporates and institutional customers. The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. (the "Bank" or "Landsbankinn") for the first six months of 2018 include the Bank and its subsidiaries (collectively referred to as the "Group").

Operations

Consolidated profit amounted to ISK 11,613 million for the first six months of the financial year 2018. Consolidated total equity amounted to ISK 232,113 million and total assets to ISK 1,249,853 million at the end of this period. The total capital ratio of the Group, calculated according to the Act on Financial Undertakings, was 24.1% at the end of the second quarter of 2018.

Risk factors

The Group's risk factors have generally been within the Group's risk appetite limits in 2018. Credit quality has improved as expected loss has decreased together with a slight drop in probability of default. Large exposures have risen to 31.8% of eligible capital, up by 10.3 percentage points from year-end 2017, with the single largest exposure equivalent to 19.2% of eligible capital, an increase of 7.8 percentage points from year-end 2017, while both remain within the Bank's risk appetite. The Group's liquidity position remains strong, with both liquidity and financing ratios well above regulatory minimums.

Outlook

Landsbankinn Economic Research forecasts 4.1% economic growth in 2018 and 2.4% growth in 2019 and 2020 - an average economic growth of 3.0% for the forecast period. The Central Bank of Iceland forecasts 3.3% growth in 2018 and an average economic growth of 3.0% for the period 2018 to 2020. Increasing investment and private consumption are expected to be the main drivers of economic growth in coming years. The inflation outlook is fairly stable up to the forecast horizon in 2020, with average inflation expected to hold close to the Central Bank's target in 2018, i.e. at 2.3%, and then to increase slightly in coming years to average 2.8% in 2019 and 2020.

Other matters

On 21 March 2018, Landsbankinn's Annual General Meeting (AGM) approved the Board's proposal to pay dividends to shareholders for the operating year 2017 in the amount of ISK 15,366 million, or ISK 0.65 per share. The dividend corresponds to 78% of net profit for the operating year and is in line with the Bank's policy to pay a dividend amounting to 60-80% of annual net profit. The dividend was paid to shareholders on 28 March 2018. The recommendation of the Board of Directors to pay an extraordinary dividend to shareholders in the amount of ISK 9,456 million, or ISK 0.40 per share, was also approved by the AGM. The extraordinary dividend is payable to shareholders on 19 September 2018.

On 1 January 2018, the Group implemented the international financial reporting standard IFRS 9 Financial Instruments. The reporting standard makes fundamental changes to the assessment of impairment on loans and receivables. Under the new standard, the assessment shall be based on expected credit losses rather than, as was the case under the previous standard, on incurred credit losses. The impact of IFRS 9 on the Group's financial statements is described in Note 4.

Statement by the Board of Directors and the CEO

The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the six months ended 30 June 2018 have been prepared on a going-concern basis in accordance with International Financial Reporting Standards as adopted by the European Union and applicable Icelandic laws and regulations.

In our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. give a true and fair view of the consolidated financial performance of the Group for the first six months of 2018, its consolidated financial position as at 30 June 2018, and its consolidated cash flows for the first six months of 2018.

Furthermore, in our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. describe the principal risks and uncertainties faced by the Group.

The Board of Directors of the Bank and Chief Executive Officer hereby endorse the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the six months ended 30 June 2018.

Independent Auditor's Review Report

To the Board of Directors and Shareholders of Landsbankinn hf.

Introduction

We have reviewed the accompanying Condensed Consolidated Statement of Financial Position of Landsbankinn hf. (the Bank) as at 30 June 2018 and the related Condensed Consolidated Income Statement, Condensed Consolidated Changes in Equity and Condensed Consolidated Cash Flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these Condensed Consolidated Interim Financial Statements in accordance with International Financial Reporting Standard IAS 34 "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on these Condensed Consolidated Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Consolidated Interim Financial Statements do not give a true and fair view of the financial position of the Bank as at 30 June 2018, and of its financial performance and its cash flows for the six-month period then ended in accordance with IAS 34 "Interim Financial Reporting" as adopted by the European Union.

General

1. Reporting entity

Landsbankinn hf. (hereinafter referred to as the "Bank" or "Landsbankinn") was founded on 7 October 2008. The Bank is a limited liability company incorporated and domiciled in Iceland. The Bank operates in accordance with Act No. 161/2002, on Financial Undertakings. The Bank is subject to supervision of the Financial Supervisory Authority (FME) in accordance with Act No. 87/1998, on Official Supervision of Financial Activities. The registered address of the Bank's office is Austurstræti 11, 155 Reykjavík.

The Condensed Consolidated Interim Financial Statements of the Bank for the six months ended 30 June 2018 include the Bank and its subsidiaries (collectively referred to as the "Group" and individually as "Group entities"). The Group's primary lines of business are corporate and personal banking, markets, asset management and other related financial services. The Group operates solely in Iceland.

2. Basis of preparation

These Condensed Consolidated Interim Financial Statements for the six months ended 30 June 2018 have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting, as adopted by the European Union and applicable Icelandic laws and regulations.

The issue of these Condensed Consolidated Interim Financial Statements was authorised by the Board of Directors and the CEO of the Bank on 26 July 2018.

The Condensed Consolidated Interim Financial Statements do not include all the information required for full annual financial statements and should be read in conjunction with the Consolidated Financial Statements of the Group as at and for the year ended 31 December 2017, which are available on the Bank's website, www.landsbankinn.is.

Going concern

The Bank's management has assessed the Group's ability to continue as a going concern and it has a reasonable expectation that the Group has adequate resources to continue its operations. Accordingly, these Condensed Consolidated Interim Financial Statements have been prepared on a going concern basis.

Functional and presentation currency

The functional currency of the Bank and its individual Group entities is Icelandic króna (ISK) and all amounts are presented in ISK, rounded to the nearest million, unless otherwise stated.

Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Significant accounting policies

The Condensed Consolidated Interim Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies applied in the Condensed Consolidated Interim Financial Statements are the same as those applied in the Consolidated Financial Statements as at and for the year ended 31 December 2017, except for new significant judgements and key sources of estimation uncertainty related to the application of IFRS 9 and IFRS 15, which are described in Note 61.

5. Operating segments

Business segments are presented in accordance with internal reporting to the CEO and the Board of Directors, who are responsible for allocating resources to the reportable segments and assessing their financial performance.

The Group has four main business segments as at the end of the reporting period:

- **Personal Banking** provides financial services through the Bank's branch network to individuals and to small and medium-size businesses outside the capital city region.
- **Corporate Banking** provides financial services to corporate clients and to small and medium-size businesses in the capital city region.
- **Markets** provides brokerage services in securities, foreign currencies and derivatives, securities offerings and advisory services. Markets also handles market making for listed securities and foreign currencies. Markets provides a range of wealth and asset management products and services for individuals, corporations and institutional investors. Landsbréf hf., a subsidiary of the Bank, is included in Markets as an operating segment.
- **Treasury** incorporates the Bank's funding and liquidity management, market making in money markets, and determines the Bank's internal pricing. Treasury also manages the Bank's exchange rate, interest rate and inflation risks, within limits set by the Board of Directors. The Bank allocates capital to the operating segments based on the Bank's target for a total capital ratio.

Support functions are comprised of Finance (excluding Treasury), Risk Management, IT and the CEO's Office. The CEO's Office is comprised of Human Resources, Marketing & Communications and Compliance. The Bank's Internal Audit department is also included in support functions; however, it is independent and reports directly to the Bank's Board of Directors.

Reconciliation consists of eliminations of internal transactions and operating items that cannot be allocated to any one segment.

Administrative expenses of the Group's support functions are allocated to appropriate business segments based on the underlying cost drivers. Expenses are allocated to the business units at market price level. Support functions supply services to business units and transactions are settled at unit prices or on an arm's-length basis, if possible, on the basis of use and activity.

The following table summarises each segment's financial performance as disclosed in the internal management reports on segment profits (loss) before tax. In these reports, all income statement items are reported on a net basis, including the total interest income and expense. Inter-segment pricing is determined on an arm's-length basis.

No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Group's total revenue during the period from 1 January to 30 June 2018 and 2017.

14. Income tax

Income tax is recognised based on the tax rates and tax laws enacted by the end of the period, according to which the domestic corporate income tax rate was 20.0% (2017: 20.0%). An additional special income tax on financial institutions is recognised at a rate of 6% on an income tax base exceeding ISK 1,000 million in accordance with Act No. 165/2011, on Financial Activity Tax.

Income tax recognised in the income statement is specified as follows:

| | 2018 | 2017 |
|--|----------------|----------------|
| | 1.1-30.6 | 1.1-30.6 |
| Current tax expense | (2,935) | (2,658) |
| Special income tax on financial institutions | (666) | (666) |
| Difference of prior year's imposed and calculated income tax | - | 178 |
| Origination and reversal of temporary differences due to deferred tax assets/liabilities | 100 | 179 |
| Total | (3,501) | (2,967) |

The tax on Group profit differs to the following extent from the amount that would theoretically arise by the domestic corporate income tax rate:

| | 2018 | 2017 |
|--|----------------------|----------------------|
| | 1.1-30.6 | 1.1-30.6 |
| Profit before tax | 16,864 | 17,240 |
| Tax on liabilities of financial institutions | (1,750) | (1,620) |
| Profit before income tax | 15,114 | 15,620 |
| Income tax calculated using the domestic corporate income tax rate | 20.0% (3,023) | 20.0% (3,124) |
| Special income tax on financial institutions | 4.4% (666) | 4.3% (666) |
| Income not subject to tax | (3.7%) 555 | (6.6%) 1,035 |
| Non-deductible expenses | 2.8% (416) | 2.5% (390) |
| Other | (0.3%) 49 | (1.1%) 178 |
| Effective income tax | 23.2% (3,501) | 19.0% (2,967) |

15. Tax on liabilities of financial institutions

On 31 December 2013 the Parliament of Iceland passed an amendment to Act No. 155/2010, on Special Tax on Financial Institutions, according to which financial institutions must pay annually a tax calculated as 0.376% (2017: 0.376%) of the carrying amount of total liabilities at year-end, excluding tax liabilities, in excess of ISK 50,000 million as determined for tax purposes. The special income tax on financial institutions is a non-deductible expense.

16. Classification of financial assets and liabilities

The Group has applied IFRS 9 from 1 January 2018 using the cumulative effect method. As a result, comparative information has not been restated and continues to be reported under IAS 39. The details of accounting policies under IAS 39 are disclosed separately if they are different from those under IFRS 9 and the impact of changes is disclosed in Note 61.

IFRS 9 espouses a new classification and measurement approach for financial assets that reflects the business model in which assets and their cash flow characteristics are managed. The classification determines how financial instruments are measured at initial recognition in financial statements and following initial recognition. The Group is obligated to re-classify financial assets if the objective of the business model for a group of financial assets has changed since initial recognition and if significant changes have taken place in the Bank's operation. Each category's basis of subsequent measurement is specified below:

- Financial assets measured at amortised cost which the Bank intends to hold to maturity to collect cash flows which contractual terms give rise to on specified dates and are solely payments of principal and interest. Financial assets belong to a business model designed to collect contractual cash flows.
- Financial assets measured at fair value through profit or loss (FVTPL) includes all other financial assets. In addition, on initial recognition the Group may irrevocably designate a financial asset, which otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income (FVOCI), as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

According to IFRS 9 Financial Instruments, the Group classifies its financial liabilities as measured at amortised cost or FVTPL.

The following table shows the classification of the Group's financial assets and liabilities according to IFRS 9 and their fair values as at 30 June 2018:

| | | Amortised cost | Mandatorily at FVTPL | Designated at FVTPL | Total carrying amount | Fair value |

16. Classification of financial assets and liabilities (continued)

According to IAS 39, "Financial Instruments: Recognition and Measurement", financial assets and liabilities must be classified into specific categories which affect how they are measured after initial recognition. Each category's basis of subsequent measurement is specified below:

- Loans and receivables, measured at amortised cost;
- Financial assets and liabilities held for trading, measured at fair value;
- Financial assets designated at fair value through profit or loss, measured at fair value;
- Financial liabilities, measured at amortised cost.

The following table shows the classification of the Group's financial assets and liabilities according to IAS 39 and their fair values as at 31 December 2017:

| Financial assets | Notes | Loans and receivables | Held for trading | Designated at fair value | Liabilities at amortised cost | Total carrying amount | Fair value |
|--|-------|-----------------------|------------------|--------------------------|-------------------------------|-----------------------|------------------|
| Cash and balances with Central Bank | 19 | 55,192 | - | - | - | 55,192 | 55,192 |

17. Fair value of financial assets and liabilities

The fair value of financial assets and liabilities is determined based on the same valuation methods as those described in the Group's Consolidated Financial Statements as at and for the year ended 31 December 2017.

Fair value hierarchy

The Group has used a valuation hierarchy for disclosure of inputs used to measure fair value of financial assets and liabilities. Fair value measurements of financial instruments are made on the basis of the following hierarchy:

- Level 1: Quoted prices are used for assets and liabilities traded in active markets. Unadjusted quoted prices are used as the measurement of fair value.
- Level 2: Valuation technique based on observable inputs. The most recent transaction prices in combination with generally accepted valuation methods are used to measure fair value of shares. However, the yield of actively traded bonds with the same duration is used as a benchmark for the valuation of bonds.
- Level 3: Valuation technique based on significant non-observable inputs. It covers all instruments for which the valuation technique includes inputs based on unobservable data and the unobservable inputs have significant effect on the instrument's valuation. For unlisted shares and bonds where there is no market data available, various generally accepted valuation techniques are used to measure fair value. Valuation using discounted cash flow or a comparison of peer companies' multiples are the most commonly used methods to calculate fair value of unlisted shares in addition to recent transactions and current market conditions. Valuation of loans and advances to customers is based on market data such as interest and inflation curves and probability of default.

Assumptions used in the valuation technique include risk-free and benchmark interest rates for estimating discount rates, credit spreads, bonds and equity prices, foreign currency exchange rates, market multipliers, market conditions for estimating future growth and other market indicators.

Valuation framework

The Bank's Risk & Finance Committee oversees the Group's overall risk and is responsible for fair value measurements of financial assets and liabilities classified as Level 2 and 3 instruments. The Bank's Valuation group reports its valuation results to the Risk & Finance Committee for verification. The Valuation group is comprised of personnel from Risk Management, Treasury and Accounting. The Valuation group holds monthly meetings to determine the value of Level 2 and Level 3 financial assets and liabilities.

17. Fair value of financial assets and liabilities (continued)

The following table shows the level in the hierarchy into which the fair value of financial assets and liabilities, carried at fair value in the Consolidated Statement of Financial Position, is categorised as at 30 June 2018:

| Financial assets | Level 1 | Level 2 | Level 3 | Total |
|---------------------------------|---------------|--------------|---------------|----------------|
| Bonds and debt instruments | 66,511 | 8,575 | 106 | 75,192 |
| Equities and equity instruments | 13,257 | - | 15,499 | 28,756 |
| Derivative instruments | - | 817 | - | 817 |

| Short positions | 2,135 | - | - | 2,135 |
| Total | 2,135 | 1,382 | 0 | 3,517 |

During the period from 1 January to 30 June 2018, there were no transfers between Level 1, Level 2 and Level 3.

The following table shows the level in the hierarchy into which the fair value of financial assets and liabilities, carried at fair value in the Consolidated Statement of Financial Position, are categorised as at 31 December 2017:

| Financial assets | Level 1 | Level 2 | Level 3 | Total |
|---------------------------------|---------------|---------------|---------------|---------------|
| Bonds and debt instruments | 58,726 | 9,080 | 83 | 67,889 |

| Short positions | 317 | - | - | 317 |
| Total | 317 | 941 | 0 | 1,258 |

During the year 2017, there were no transfers between Level 1, Level 2 and Level 3.

The following tables show the reconciliation of fair value measurement in Level 3 for the six months ended 30 June 2018 and for the year 2017:

| | Bonds and debt instruments | Equities and equity instruments | Loans and advances to customers | Total financial assets |
|--|----------------------------|---------------------------------|---------------------------------|------------------------|

18. Unobservable inputs in fair value measurement

The following table summarises the unobservable inputs used in measuring fair value of financial assets and liabilities categorised in Level 3 as at 30 June 2018 and 31 December 2017.

| As at | Assets | Liabilities | Valuation technique | Key un-observable inputs | Range of inputs | |
|---------------------------------|---------------|-------------|---------------------|--------------------------|-----------------|--------|
| | | | | | Lower | Higher |
| As at 30 June 2018 | | | | | | |
| Bonds and debt instruments | 106 | - | See 1) below | See 1) below | n/a | n/a |
| Equities and equity instruments | 15,499 | - | See 2) below | See 2) below | n/a | n/a |
| Loans and advances to customers | 8,111 | - | See 3) below | See 3) below | n/a | n/a |
| | 23,716 | 0 | | | | |
| As at 31 December 2017 | | | | | | |
| Bonds and debt instruments | 83 | - | See 1) below | See 1) below | n/a | n/a |
| Equities and equity instruments | 15,659 | - | See 2) below | See 2) below | n/a | n/a |
| | 15,742 | 0 | | | | |

A further description of the financial instruments categorised in Level 3 are as follows:

1. Fair value of corporate bonds and claims on financial institutions in winding-up proceedings and other insolvent assets is estimated on expected recovery. Reference is also made to prices in recent transactions. Given the nature of the valuation method, a range of key unobservable inputs is not available.

2. Equities and equity instruments classified as Level 3 assets, are unlisted and not traded in an active market and therefore subject to unobservable inputs for fair value measurements. Valuation using discounted cash flows, comparison of peer companies' multiples, analysis of financial position and results, outlook and recent transactions are the methods or inputs used to estimate fair value of investments in equities and equity instruments. Given the nature of the valuation method, the range of key unobservable inputs is not available.

3. Loans and advances to customers carried at FVTPL are classified as financial assets in Level 3. The valuation technique is based on significant non-observable inputs as loans and advances are unlisted and not traded in an active market. The valuation technique is based on available market data such as interest and inflation curves, probability of default and liquidity spread. Given the nature of the valuation method, the range of key unobservable inputs is not available. Valuation of loans and advances to customers is based on market data such as interest and inflation curves and probability of default.

The effect of unobservable inputs in fair value measurement

Although the Group believes that its estimates of fair value are appropriate, the use of different valuation methodologies and assumptions could lead to different estimates of fair value. The following tables show how profit (loss) before tax would have been affected if one or more of the inputs for fair value measurements in Level 3 were changed to likely alternatives for the six months ended 30 June 2018 and 30 June 2017:

| Effect on profit before tax | 2018 1.1-30.6 | | 2017 1.1-30.6 | |
|---------------------------------------|------------------|--------------|------------------|--------------|
| | Favourable | Unfavourable | Favourable | Unfavourable |
| Bonds and debt instruments | 5 | (5) | 4 | (4) |
| Equities and equity instruments: | | | | |
| Equities | 730 | (709) | 531 | (690) |
| Mutual funds | 194 | (194) | 275 | (275) |
| Total equities and equity instruments | 924 | (903) | 806 | (965) |
| Loans and advances to customers | 88 | (88) | - | - |
| Total | 1,017 | (996) | 810 | (969) |

The effect on profit was calculated as the difference between results generated using the same valuation methods but changing key unobservable inputs for bonds and equities by +/- 5% and +/- 1% for loans and advances to customers.

19. Cash and balances with Central Bank

| | 30.6.2018 | 31.12.2017 |

| Total cash and balances with Central Bank | 68,372 | 55,192 |

Notes to the Condensed Consolidated Interim Financial Statements

19. Cash and balances with Central Bank (continued)

The Bank holds mandatory reserve deposit accounts with the Central Bank of Iceland in compliance with the Central Bank's new Rules on Minimum Reserve Requirements No. 585/2018. Under these rules the reserve requirement is divided into two parts: a fixed reserve requirement bearing no interest and an average maintenance level requirement bearing the same interest as that on deposit-taking institutions' current accounts with the Central Bank. The new rules came into effect for the reserve maintenance period starting 21 June 2018. The average balance of these accounts for each reserve term must be equivalent at least to the mandatory reserve deposit requirement which amounted to ISK 12,349 million for June 2018 (December 2017: ISK 12,942 million).

The Bank holds an additional amount as a mandatory reserve with the Central Bank in compliance with Article 8 of Act No. 37/2016, on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. This reserve is equivalent to at least the amount of the total balance of deposits subject to special restrictions for investment held with the Group and consists of certificates of deposit issued by the Central Bank.

20. Bonds

Bonds are classified as "domestic" or "foreign" according to issuers' country of incorporation.

Bonds and debt instruments measured at amortized cost as at 30 June 2018 and classified as loans and receivables as at 31 December 2017 consist partly of the government bonds which the Bank received in settlement of a capital contribution in 2009. The bonds were listed on NASDAQ Iceland in 2010.

Repossessed collateral

Repossessed collateral consists mainly of property and equipment resulting from collateral foreclosed by the Group as security for loans and advances. The Group's policy is to pursue timely realisation of the repossessed collateral in an orderly manner. The Group generally does not use the non-cash repossessed collateral for its own operations. Repossessed collateral is recognised as assets of either the Bank or its subsidiary Hömlur ehf.

33. Equity

Share capital

As of 30 June 2018, ordinary shares authorised and issued by the Bank totalled 24 billion, while outstanding shares were 23.6 billion. Each share has a par value of ISK 1. Each ordinary share conveys one vote at general meetings of the Bank. All share capital is fully paid up.

On 21 March 2018, shareholders at the Annual General Meeting (AGM) of the Bank for the operating year 2017 approved the Board's recommendation for the Bank to acquire own shares at the maximum of 10% of nominal value of issued share capital in accordance with Article 55 of the Public Limited Companies Act No. 2/1995. The price of each share is to be determined by the internal value of the Bank's shares, according to its most recently published results prior to the timing of the repurchase of the own shares. This authorisation applies until the next AGM in 2019 and the disposal of the own shares under this authorisation is subject to the approval of a shareholders meeting.

Share premium

Share premium represents the difference between the ISK amount received by the Bank when issuing share capital and the nominal amount of the shares issued, less costs directly attributable to issuing the new shares.

Statutory reserve

The statutory reserve is established in accordance with the Public Limited Companies Act, No. 2/1995, which stipulates that the Bank must allocate profits to the statutory reserve until the reserve is equal to one-quarter of the Bank's share capital.

Retained earnings

Act No. 3/2006, on Annual Financial Statements, with subsequent amendments, require inter alia the separation of retained earnings into two categories: restricted and unrestricted retained earnings. Unrestricted retained earnings consist of undistributed profits and losses accumulated by the Group since the foundation of the Bank, less transfers to the Bank's statutory reserve and restricted retained earnings. Restricted retained earnings are split into two categories:

1. Unrealised gains in subsidiaries and equity-accounted associates reserve; if the share of profit from subsidiaries or equity-accounted associates is in excess of dividend received, the Group transfers the difference to a restricted reserve in equity. If the Group's interest in subsidiaries or equity-accounted associates is sold or written off, the applicable amount recognised in the reserve is transferred to retained earnings.

2. Financial assets designated at fair value through profit or loss reserve. The Group transfers fair value changes arising from financial assets designated at fair value through profit or loss, from retained earnings to a restricted reserve. Amounts recognised in the reserve are transferred back to retained earnings upon sale of the financial asset.

Dividend

On 21 March 2018, shareholders at the Annual General Meeting (AGM) of the Bank for the operating year 2017 approved the Board's proposal to pay dividends to shareholders in the amount of ISK 15,366 million, or ISK 0.65 per share. The dividend was paid to shareholders on 28 March 2018. The recommendation of the Board of Directors to pay an extraordinary dividend in the amount of ISK 9,456 million on outstanding shares, or ISK 0.40 per share, was also approved by the AGM. The extraordinary dividend is payable to shareholders in September 2018. These dividends are payable to shareholders listed on the shareholders' registry of Landsbankinn at end of business on the day of the AGM, 21 March 2018, unless the Bank receives notification of assignment of the dividend through the transfer of shares.

Restriction of dividend payments

According to the Public Limited Companies Act, No. 2/1995, it is only permissible to allocate as dividend profit in accordance with approved annual financial statements for the immediate past financial year, profit carried forward from previous years, and free funds after deducting loss which has not been met, and the funds which according to law or Articles of Association must be contributed to a reserve fund or for other use. Furthermore, under the amendment to Act No. 3/2006, on Annual Financial Statements, from June 2016 it is only permissible to allocate as dividend profit from unrestricted retained earnings.

Additionally, according to the Act on Financial Undertakings, No. 161/2002, the Icelandic Financial Supervisory Authority can impose proportionate restrictions on the Bank's dividend payments, if the Bank's capital adequacy ratio falls below the total capital requirement plus capital buffers, see Note 39 Capital requirements.

Diluted earnings per share are calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

| | 2018 | 2017 | 2018 | 2017 |
|---|---------------|---------------|---------------|---------------|
| | 1.4-30.6 | 1.4-30.6 | 1.1-30.6 | 1.1-30.6 |
| Number of shares | | | | |
| Number of ordinary shares issued at beginning of period | 24,000 | 24,000 | 24,000 | 24,000 |
| Average number of own shares | (360) | (361) | (360) | (359) |
| Weighted average number of shares outstanding | 23,640 | 23,639 | 23,640 | 23,641 |
| Basic and diluted earnings per share from operations (ISK) | 0.15 | 0.21 | 0.49 | 0.54 |

The Bank's basic and diluted earnings per share are equal as the Bank has not issued any options, warrants, convertibles or other potential sources of dilution.

35. Litigation

Material litigation cases against the Bank and its subsidiaries

The Bank and its subsidiaries are from time to time party to litigation cases which arise in the ordinary course of business. Some of these cases are material in the sense that management considers that they may have a significant impact on the amounts disclosed in the Group's financial statements and are not comparable to other, previously closed, cases.

In June 2013, a payment card company commenced litigation against the Bank and certain other financial undertakings claiming tort liability in the amount of around ISK 1.2 billion, plus interest. The plaintiff argued that the defendants were liable in tort for alleged violation of competition rules. On 1 June 2017, the Supreme Court confirmed the decision of the District Court to dismiss the case on grounds of insufficient substantiation. In September 2017, the same payment card company commenced litigation against the same defendants as in the previous case claiming tort liability in the amount of around ISK 923 million, plus interest. The plaintiff, again, argued that the defendants were liable in tort for alleged violation of competition rules. On 2 March 2018, the District Court dismissed the case on grounds of insufficient substantiation. The payment card company appealed that decision to the 1st instance court of appeals, Landsrettur. On 9 May 2018, Landsrettur confirmed the conclusion of the District Court. The payment card company appealed that decision to the Supreme Court. On 13 June 2018, the Supreme Court dismissed the case since Landsrettur had already confirmed the conclusion of the District Court.

Other cases

In December 2014, the Bank sold to Arion Bank hf. all its shares in Valitor Holding hf. (Valitor), the parent company of Valitor hf. The agreement includes an indemnity clause under which the Bank is to proportionally compensate Arion Bank hf. with regards to certain cases concerning Valitor that relate to events that occurred before delivery of the sold shares, inter alia, for potential compensatory damages that Valitor may be obligated to pay for an alleged loss sustained due to Valitor's termination of a vendor agreement. A case on the matter has been filed before the District Court of Reykjavík.

On 8 March 2018, the Supreme Court concluded in case no. 159/2017 that a commercial bank, other than Landsbankinn, could not claim penalty rates on two mortgages that had fallen due during a temporary moratorium on payments for an individual under Act no. 101/2010 on Debt Mitigation for Individuals. Landsbankinn is assessing the potential impact of the case on the Bank.

Proceedings relating to the sale of the Bank's shareholding in Borgun hf.

In January 2017, the Bank commenced proceedings before the Reykjavik District Court against BPS ehf., Eignarhaldsfélagið Borgun slf., Borgun hf. and the then CEO of Borgun hf. In the proceedings, the Bank demands the acknowledgement of the defendants' liability for losses incurred by the Bank because it did not, when the Bank sold its 31.2% shareholding in Borgun hf., have information that the defendants had, but did not disclose to the Bank, on Borgun hf.'s shareholding in Visa Europe Ltd. The defendants demanded the dismissal of the proceedings but those demands were rejected by a ruling of the District Court in June 2017. That ruling was not appealable and the defendants have now submitted their written defences responding to the substance of the Bank's pleadings. On 13 April 2018 the Bank filed a request to the District Court to appoint assessors to appraise certain issues regarding the annual financial statements of Borgun hf. The hearing of the request has been postponed until 31 August 2018.

Notes to the Condensed Consolidated Interim Financial Statements

36. Interest in subsidiaries

The main subsidiaries held directly or indirectly by the Group as at 30 June 2018 were as detailed in the table below. This includes those subsidiaries that are most significant in the context of the Group's business.

Main subsidiaries as at 30 June 2018

| Company | Ownership interest | Activity |
|--|--------------------|-------------------------------------|
| Eignarhaldsfélag Landsbankans ehf. (Iceland) | 100% | Holding company |
| Landsbréf hf. (Iceland) | 100% | Management company for mutual funds |
| Hömlur ehf. (Iceland)* | 100% | Holding company |

*Hömlur ehf. is a parent of a number of subsidiaries, which are neither individually nor combined significant in the context of the Group's business.

The Group does not have significant restrictions on its ability to access or use its assets and settle its liabilities other than those resulting from the supervisory framework. The Group did not have any material non-controlling interests as at 30 June 2018.

37. Related party transactions

Transactions with related parties

Transactions with the Icelandic government and government-related entities

The Group's products and services are offered to the Icelandic government and government-related entities in competition with other vendors and under generally accepted commercial terms. In a similar manner, the Bank and other Group entities purchase products and services from government-related entities at market price and otherwise under generally accepted commercial terms. The nature of and amounts outstanding with public entities are disclosed in Note 42, under Public entities.

In March 2016, the Icelandic State Treasury took over Íslandsbanki hf. Following the takeover, a settlement was reached with the Icelandic Competition Authority to the effect that both banks will continue to operate as independent competitors in the financial market. The takeover qualifies as a merger under Icelandic competition law, as the Icelandic State Treasury has control over the two banks as of the time of the takeover. The Bank has a traditional bank-to-bank relationship with Íslandsbanki under generally accepted commercial terms. The nature of and amounts outstanding with financial institutions, including Íslandsbanki, are disclosed in Note 42, under Financial institutions.

Transactions with other related parties

The following table presents the total amounts of loans to key management personnel and parties related to them and loans to associates of the Group:

| Loans in ISK million | 2018 | | 2017 | |
|---|-----------------------|--|---------------------------|--|
| | Balance as at 30 June | Highest amount outstanding during the period | Balance as at 31 December | Highest amount outstanding during the period |

37. Related party transactions (continued)

Transactions with other related parties (continued)

The following table presents the total amount of guarantees to key management personnel and parties related to them and associates of the Group:

| | Balance as at 30 June 2018 | Balance as at 31 December 2017 |
|---|-------------------------------------|---|
| Guarantees in ISK million | | |
| Key management personnel | - | - |
| Parties related to key management personnel | - | - |
| Associates | 441 | 578 |
| Total | 441 | 578 |

All of the above transactions were made in the ordinary course of business and on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with third party counterparties.

38. Events after the reporting period

No events have arisen after the reporting period of these financial statements that require amendments or additional disclosures in the Condensed Consolidated Financial Statements for the six months ended 30 June 2018.

Capital management

39. Capital requirements

The Group's capital management policies and practices aim to ensure that the Group has sufficient capital to cover the risks associated with its activities on a consolidated basis. The capital management framework of the Group comprises four interdependent areas: capital assessment, risk appetite/capital target, capital planning, and reporting/monitoring. The Group regularly monitors and assesses its risk profile in key business areas on a consolidated basis and for the most important risk types. Risk appetite sets out the level of risk the Group is willing to take in pursuit of its business objectives.

The Group's capital requirements are defined in Icelandic law and regulations and by the Icelandic Financial Supervisory Authority (FME). The requirements are based on the European legal framework for capital requirements (CRD IV and CRR), implementing the Basel III capital framework. The regulatory minimum capital requirement under Pillar I is 8% of Risk Exposure Amount (REA) for credit risk, market risk and operational risk. In conformity with Pillar II A requirements, the Bank annually assesses its own capital needs through the Internal Capital Adequacy Assessment Process (ICAAP). The ICAAP results are subsequently reviewed by the FME in the Supervisory Review and Evaluation Process (SREP). The Group's minimum capital requirement, as determined by the FME, is the sum of Pillar I and Pillar II A requirements.

In addition to the minimum capital requirement, the Bank is required by law to maintain certain capital buffers determined by the FME, which may, depending on the situation, be based on recommendations from the Icelandic Financial Stability Counsel (FSC). The FSC has defined Landsbankinn as a systematically important financial institution in Iceland.

The Group's most recent capital requirements, as determined by the FME, are as follows (as a percentage of REA):

| As at 30.6.2018 | CET1 | Tier 1 | Total |
|---|--------------|---------------|--------------|
| Pillar I | 4.5% | 6.0% | 8.0% |
| Pillar II A | 2.8% | 3.7% | 4.9% |
| Minimum requirement under Pillar I and Pillar II A | 7.3% | 9.7% | 12.9% |
| Systemic risk buffer | 2.8% | 2.8% | 2.8% |
| Capital buffer for systematically important institutions | 2.0% | 2.0% | 2.0% |
| Countercyclical capital buffer | 1.2% | 1.2% | 1.2% |
| Capital conservation buffer | 2.5% | 2.5% | 2.5% |
| Combined buffer requirement under Pillar II B | 8.5% | 8.5% | 8.5% |
| Total capital requirement | 15.8% | 18.2% | 21.4% |

- The combined buffer requirement (CBR) shall be met in full with Common Equity Tier 1 (CET1) capital.
- Tier 1 capital is the sum of Common Equity Tier 1 (CET1) capital and Additional Tier 1 (AT1) capital.
- Total capital is the sum of Tier 1 capital and Tier 2 capital.

On 15 May 2018, the FME announced its decision, following recommendations of the FSC, to raise the counter-cyclical capital buffer on domestic exposures by 0.50 percentage points, from 1.25% to 1.75%. The raise will be effective as of 15 May 2019.

As at 30 June 2018, the Group's capital requirements, as determined by the FME, remain unchanged from 31 December 2017.

*The amounts are updated on a yearly basis.

41. Leverage ratio

The following table shows the Group's leverage ratio as at 30 June 2018 and 31 December 2017. The requirements are based on the European legal framework for capital requirements (CRD IV and CRR) implementing the Basel III capital framework. Subject to Article 30(a) of Act No. 161/2002, on Financial Undertakings, a minimum leverage ratio of 3.0% is required.

| | 30.6.2018 | 31.12.2017 |

42. Maximum exposure to credit risk and concentration by industry sectors

The following tables show the Group's maximum credit risk exposure as at 30 June 2018 and 31 December 2017. For on-balance sheet assets, the exposures are based on net carrying amounts as reported in the Condensed Consolidated Interim Statement of Financial Position. Off-balance sheet amounts are the maximum amounts the Group might have to pay for guarantees, loan commitments in their full amount, and undrawn overdraft and credit card facilities.

The Group uses the ISAT 08 industry classification for corporate customers.

43. Collateral and loan-to-value

The loan-to-value (LTV) ratio expresses the gross carrying amount as a percentage of the total value of the collateral. Loan-to-value is one of the key risk factors assessed when qualifying borrowers for a loan. The risk of default is always at the forefront of lending decisions, and the likelihood of a lender absorbing a loss in the foreclosure process increases as the collateral value decreases. A high LTV indicates that there are smaller buffers to protect against price falls or increases in the loan if repayments are not made and interest is added to the outstanding balance.

| As at 30 June 2018 | LTV ratio - Fully collateralised | | | | | LTV ratio - Partially collateralised | | Without collateral | Allowance for impairment | Carrying amount |

44. Collateral types

The following tables disclose the assignments of collateral values to claim values, whereby the value of each individual collateral item held cannot exceed the gross carrying amount of the corresponding individual claim. Changes in collateral value amounts between periods result either from changes in the underlying value of collateral or changes in the gross carrying amount.

49. Large exposures

As at 30 June 2018, four customer groups were rated as large exposures in accordance with rules on large exposures. Customers are rated as large exposures if their total obligations, or those of financially or administratively connected parties, exceed 10% of the Group's eligible capital. According to the rules, no exposure, after credit risk mitigation, may exceed 25% of the eligible capital. The following table shows the Group's large exposures after credit mitigation:

| | Number of large exposures | Large exposures |
|---|---------------------------------|--------------------|
| As at 30 June 2018 | | |
| Large exposures between 10% and 20% of the Group's eligible capital | 2 | 73,013 |

Liquidity risk

52. Liquidity risk management

The Group complies with the liquidity rules set by the Central Bank of Iceland No. 266/2017 which replaced rules No. 1031/2014 on 31 March 2017. The Group also follows Central Bank rules No. 1032/2014 on funding, as well as guidelines No. 2/2010 from the Icelandic Financial Supervisory Authority on best practice for managing liquidity in banking organisation. Rules No. 266/2017 require the Group to maintain a LCR minimum of 100% total and 100% for foreign currencies and rules No. 1032/2014 set requirements for a minimum of 100% NSFR in foreign currencies. The Group submits monthly reports on its liquidity and funding position to the Central Bank of Iceland and the FME.

The key indicator of short-term liquidity risk is measured by the liquidity coverage ratio (LCR) which shows the ratio of high quality liquid assets to expected total net cash outflows over the next 30 days under a specified stress scenario. High quality liquid assets are comprised of cash at hand, balances with the Central Bank, assets eligible for repo transactions with the Central Bank and zero percent risk-weighted foreign government bonds. Estimated inflow and outflow weights, according to rules No. 266/2017, are applied to the total balance amount for each asset and liability group measured in the ratio, reflecting the next 30 calendar days. Financial institutions can at a maximum assume 75% of their estimated inflow net to their estimated outflow. This is done so that financial institutions can not overrely on their estimated inflow in times of stress. The calculations for the ratio as at 30 June 2018 and 31 December 2017 are shown in the following table:

| Liquidity coverage ratio 30 June 2018 | Total | | Foreign currencies | |
|--|----------------|----------------|--------------------|---------------|

Market risk

54. Market risk management

The following table summarises the Group's exposure to market risk as at 30 June 2018 and December 2017. The Group uses the standardized approach to calculate risk exposure amounts for Credit Valuation Adjustment (CVA) according to capital requirement regulations.

| Market risk factor | 30.6.2018 | 31.12.2017 |
|-----------------------------|-------------|-------------|
| | % of RWA | % of RWA |
| Equity price risk | 1.1% | 1.1% |
| Interest rate risk | 0.4% | 0.3% |
| Credit Valuation Adjustment | 0.0% | 0.1% |
| Foreign exchange risk | 0.4% | 0.5% |
| Total | 2.0% | 1.9% |

The currency risk in the Group's trading portfolios is disclosed together with that in its non-trading portfolios in Notes 58-59.

55. Equity price risk

Equity price risk is the risk of equity value fluctuations due to open positions in equity-based instruments.

The Group's equity trading portfolio is comprised of proprietary trading positions and exposures due to market making, including equity derivatives and hedging positions, in listed ISK equities. The Group's non-trading portfolio contains listed and unlisted equities as part of asset and liability management. Further details are disclosed in Note 21.

56. Interest rate risk

The following tables summarise the Group's exposure to interest rate risk. The tables include interest-bearing financial assets and liabilities at their carrying amounts, while off-balance sheet amounts are the notional amounts of the derivative instruments, see Note 22. The amounts presented are categorised by the earlier of either the contractual repricing or the maturity date.

57. CPI indexation risk (all portfolios)

The consumer price index (CPI) indexation risk is the risk that the fair value or future cash flows of CPI-linked financial instruments may fluctuate due to changes in the Icelandic CPI. The Group has a considerable imbalance in its CPI-linked assets and liabilities. To mitigate this imbalance the Bank offers non-CPI-linked loans, CPI-linked deposits, CPI-linked covered bonds as well as CPI-linked interest rate swaps.

CPI indexation risk is managed centrally within the Group by Treasury, and is monitored by Market Risk department within the Risk Management division. The following table summarizes the Group's CPI imbalance, calculated as the difference between CPI-linked financial assets and liabilities, as at 30 June 2018 and 31 December 2017.

58. Currency risk (all portfolios)

The Group follows Rules No. 950/2010, on Foreign Exchange Balances, as set by the Central Bank of Iceland. The Rules stipulate that an institution's foreign exchange balance (whether long or short) must always be within 15% of its capital base, in each currency and for all currencies combined. The Group submits daily and monthly reports to the Central Bank with information on its foreign exchange balance.

The Group's combined net foreign exchange balance as at 30 June 2018 was +1,44% of the Group's capital base (31.12.2017: +1.61%).

59. Concentration of currency risk

The following tables summarise the Group's exposure to currency risk as at 30 June 2018 and 31 December 2017. The off-balance sheet amounts shown are the notional amounts of the Group's derivative instruments.

Amounts presented under assets and liabilities include all spot deals. When managing currency risk the Group regards spot deals as non-derivative assets or liabilities.

Accounting policies

61. Changes to accounting policies

The accounting policies applied in the Condensed Consolidated Interim Financial Statements are the same as those applied in the Consolidated Financial Statements as at and for the year ended 31 December 2017, except for the changes set out below.

IFRS 9 - Financial instruments

The Group has adopted IFRS 9 Financial Instruments (2014) with 1 January 2018 as the date of initial application. The requirements of IFRS 9 represent a significant change from IAS 39 Financial Instruments: Recognition and Measurement. The new standard introduces extensive changes to previous guidelines on the classification and measurement of financial assets and introduces a new 'expected credit loss' model for the impairment of financial assets.

As permitted under IFRS 9, the Group has elected to continue to apply the hedge accounting requirements of IAS 39.

Transition to IFRS 9

Changes in accounting policies resulting from the adoption of IFRS 9 have been applied retrospectively, except as described below.

- Comparative periods have not been restated. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognized in retained earnings and reserves as at 1 January 2018. Accordingly, the information presented for 2017 does not reflect the requirements of IFRS 9 and is therefore not comparable to the information presented for 2018 under IFRS 9.

- The following assessments have been made on the basis of facts and circumstances prevailing at the date of initial application.
 - The determination of the business models within which financial assets are held.
 - The designation and revocation of previous designations of certain financial assets and financial liabilities measured at FVTPL.

- If a debt security had low credit risk at the date of initial application of IFRS 9, the Group assumes that credit risk on the asset has not increased significantly since its initial recognition.

For more information and details on the implications of and changes resulting from the adoption of IFRS 9, see Note 4. Also new or amended interim disclosures have been provided for the current period and, where applicable, comparative period disclosures are consistent with those made the previous year.

Governance

As part of the implementation of IFRS 9, the Group has designed and implemented new controls and governance procedures in several areas that contribute to the calculation of expected credit losses. These include controls over credit risk data and systems, expected credit loss models, forecasts of future macroeconomic variables, design and probability-weighting of future macroeconomic scenarios, and the determination of significant increase in credit risk. The IFRS 9 Steering Committee (SteerCo) is responsible for the design and delivery of business processes and organisational design to support the implementation of IFRS 9. SteerCo is comprised of the CFO, the CRO and personnel from Risk Management, Operations & IT and Accounting.

Classification and measurement

IFRS 9 espouses a new classification and measurement approach for financial assets that reflects the business model in which assets and their cash flow characteristics are managed. The classification determines how financial instruments are measured at initial recognition in financial statements and following initial recognition. The Group is obligated to re-classify financial assets if the objective of the business model for a group of financial assets has changed since initial recognition and if significant changes have taken place in the Bank's operation. Financial assets are classified into three main categories according to IFRS 9:

- Financial assets measured at amortised cost which the Bank intends to hold to maturity to collect cash flows which contractual terms give rise to on specified dates and are solely payments of principal and interest. Financial assets in this category belong to a business model designed to collect contractual cash flows.

- Financial assets measured at fair value through other comprehensive income (FVOCI) which the Bank intends to hold to maturity to collect cash flows which contractual terms give rise to on specified dates and are solely payments of principal and interest, and sale of the financial asset. Financial assets in this category belong to a business model designed to collect contractual cash flows and to sell financial assets.

- Financial assets measured at fair value through profit or loss (FVTPL) includes all other financial assets. In addition, on initial recognition the Group may irrevocably designate a financial asset, which otherwise meets the requirements to be measured at amortised cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Investments in equities and equity instruments held for trading are measured at fair value through profit or loss. For all other investments in equity instruments an irrevocable choice can be made to measure at fair value through other comprehensive income (FVOCI) on an instrument-by-instrument basis.

Notes to the Condensed Consolidated Interim Financial Statements

61. Changes to accounting policies (continued)

Transition to IFRS 9 (continued)

Classification and measurement (continued)

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset under the scope of the standard, are not separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities. The standard requires financial liabilities to be classified into two measurement categories, amortised cost and FVTPL. Under IFRS 9, almost all financial liabilities other than loan commitments and financial guarantees are measured at amortised cost. Financial liabilities held for sale and derivatives that are liabilities are measured at FVTPL.

Business model assessment

The Bank determines its business models based on the objective under which its portfolios of financial assets are managed and information provided to management. In determining its business models, the Bank takes the following factors into consideration:

- Management's stated policies and objectives for the portfolio and the operation of those policies in practice.
- The primary risks that affect the performance of the business model and how those risks are managed.
- The methods by which the performance of assets in a portfolio is evaluated and reported to management.
- The frequency and significance of financial asset sales in previous periods, the reasons for such sales and expected future sales activities. Sales in themselves do not determine the business model and are not considered in isolation. Instead, sales provide evidence about how cash flows are realized.

Cash flow characteristics assessment

The SPPI (solely payments of principal and interest) test is used to determine whether loans and advances to financial institutions and to customers are measured at amortised cost or at fair value through profit or loss (FVTPL).

For the purposes of this test, principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period of time, and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows in such a way that it would not meet the condition of being solely payment of principal and interest. The SPPI test is applied to the Bank's loan portfolio to decide if the classification of loans complies with IFRS 9.

Market bonds and other debt instruments

Market bonds and other debt instruments are either measured at amortized cost or at fair value through profit or loss.

Market bonds and other debt instruments classified as financial assets at fair value through profit or loss (FVTPL) are recognized at fair value in the statement of financial position both initially and subsequent to initial recognition.

Market bonds and other debt instruments classified at amortized cost are initially measured at fair value plus directly attributable transaction costs, and are subsequently measured at amortized cost using the effective interest method. Accrued interest is included in the carrying amount of the bonds and it is recognized in the line item "Interest income" in the income statement. Bonds and other debt instruments within a held-to-collect business model under which their contractual cash flows are solely payment of principal and interest are measured at amortized cost.

Market bonds and other debt instruments measured at FVTPL include financial assets held for trading purposes, financial assets held as part of a portfolio managed on a fair value basis and financial assets whose cash flows do not represent payments that are solely payments of principal and interest. These instruments are measured at fair value in the Statement of Financial Position, with transaction costs recognized immediately as income as part of non-interest income. Realized and unrealized gains and losses are recognized as part of net gain on financial assets and liabilities.

Equities and other equity instruments

Equities and other equity instruments which are classified as financial assets at fair value through profit or loss are recognised at fair value in the statement of financial position both initially and subsequent to initial recognition. Transaction costs are recognised directly in the income statement. Gains and losses arising from changes in fair value are recognised directly in the income statement, either as net gain (loss) on financial assets and liabilities held for trading or net gain (loss) on financial assets designated at fair value in the line item "Net gain (loss) on financial assets and financial liabilities". Foreign exchange gains and losses are included in the line item "Net foreign exchange (loss) gain". Quoted prices are generally readily available for equities listed on the world's stock exchanges and for major indices on such shares. In lieu of such information, the fair value is estimated based on market prices and earnings multiples from similar securities, recent transactions or by using discounted cash flow methods.

Notes to the Condensed Consolidated Interim Financial Statements

61. Changes to significant accounting policies (continued)

Fair value option

Financial assets measured at fair value through profit or loss show separately i) those designated as such upon initial recognition and ii) those mandatorily measured at fair value through profit or loss.

Bonds and other debt instruments and equities and other equity instruments measured at fair value through profit or loss are measured at fair value with changes in fair value and related transaction costs recorded in line item "Net gain (loss) on financial assets and liabilities". This category includes the following:

Market bonds and other debt instruments and equities and other equity instruments (securities) designated at fair value through profit or loss

To qualify for this designation, the security must have reliably measurable fair value and the designation must eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities, or recognizing related gains and losses on a different basis (sometimes referred to as "an accounting mismatch"). This includes, inter alia, bonds and equities held for trading.

Market bonds and other debt instruments and equities and equity instruments (securities) mandatorily measured at fair value through profit or loss

Securities managed on a fair value basis but not held for trading, or debt securities whose cash flows do not represent solely payments of principal and interest, and equities not held for trading.

Loans and advances to customer mandatorily measured at fair value through profit or loss

Certain loans and advances to customers are classified under IFRS 9 as mandatorily measured at FVTPL because they are held within a business model in which they are managed, their performance is evaluated on a fair value basis and their cash flows do not represent solely payments on principal and interest.

Hedge accounting

IFRS 9 incorporates new hedge accounting rules intended to align hedge accounting with risk management practices. IFRS 9 includes an accounting choice to defer the adoption of IFRS 9 hedge accounting and to continue with IAS 39 hedge accounting. The Group has elected to continue to apply IAS 39. The Group will nevertheless provide the expanded disclosures on hedge accounting introduced by the amendments IFRS 7 Financial Instruments.

Loans and advances

Loans and advances are initially measured at fair value and subsequently in accordance with the classification policy of financial assets provided above. The majority of the Group's loans are carried at amortized cost using the effective interest method, which represents the gross carrying amount less allowance for credit losses. Interest on loans is recognized under interest income. The estimated future cash flows used in this calculation include those determined by the contractual terms of the asset and all fees that are considered to be integral to the effective interest rate. Also included in this amount are transaction costs and all other premiums or discounts. For loans carried at amortized cost, impairment losses are recognized at each balance sheet date in accordance with the three-stage expected credit loss model.

Loans and advanced measured at fair value through profit and loss are assets whose cash flows do not represent payments that are solely payments of principal and interest but are non-trading assets. Changes in fair value, as well as any gains or losses realized on disposal, are recognized under the line item "Net gain (loss) on financial assets and liabilities".

Impairment

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' model. This will require considerable judgement over how changes in economic factors affect expected credit loss (ECL). ECL reflects the present value of cash shortfalls due to default events either over the following twelve months or over the expected life of a financial instrument, depending on credit deterioration from inception. ECL should reflect an unbiased, probability-weighted outcome as opposed to the single best estimate allowed under the previous approach. The probability-weighted outcome considers multiple scenarios based on reasonable and available information.

The Group's approach was to leverage as much as possible the existing models and processes to meet the requirements of IFRS 9. Where shortfalls presented themselves, the Group has developed new methodologies and models. IFRS 9 requires the calculation of an ECL that takes probability-weighted economic scenarios into account. In general, the calculation of ECL is based on the following parameters: probability of default (PD), loss given default (LGD), exposure at default (EAD) and macroeconomic parameters.

Under IFRS 9, credit loss allowance on all loans will be measured on each reporting date according to a three-stage expected credit loss model. Allowance should be calculated as either the 12-month expected credit loss or the lifetime ECL.

- Stage 1 – No significant increase in credit risk. Loans whose credit risk has not increased significantly shall be stage 1 and the loss allowance measured as the 12-month expected credit losses.
- Stage 2 – Significant increase in credit risk. Loans whose credit risk has increased significantly since initial recognition shall be stage 2 and the loss allowance measured as the lifetime ECL.
- Stage 3 – Default. Loans where the obligor is in default shall be stage 3 and the loss allowance measured as the lifetime ECL.

Notes to the Condensed Consolidated Interim Financial Statements

61. Changes to significant accounting policies (continued)

Impairment (continued)

Stage 1 and Stage 2 credit loss allowances effectively replace the collective allowance for loans not yet identified as impaired under IAS 39, while Stage 3 credit loss allowances effectively replace the individually and collectively assessed allowance for impaired loans. Under IFRS 9, the population of financial assets and corresponding allowance disclosed as Stage 3 will not necessarily correspond to the amounts of financial assets currently disclosed as impaired in accordance with IAS 39. Consistent with IAS 39, loans are written off when there is no realistic probability of recovery. Accordingly, the Group's policy on the timing of write-offs of financial assets will not change significantly with the adoption of IFRS 9.

Movements between Stage 1 and Stage 2 are based on whether an instrument's credit risk as measured at the reporting date has increased significantly relative to the credit risk measured at initial recognition. For the purpose of this assessment, credit risk is based on an instrument's lifetime PD, not the loss amounts. The assessment of significant increase in credit risk is a new concept under IFRS 9 and will require significant judgement.

The Group will recognise loss allowances at an amount equal to lifetime ECL, except in the following cases, for which the amount recognised will be 12-month ECL:

- Debt investment securities that are determined to have low credit risk at the reporting date. The Group considers a debt security to low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment-grade'.
- Other financial instruments (other than lease receivables) for which credit risk has not increased significantly since initial recognition.
- Loss allowances for lease receivables will always be measured at an amount equal to lifetime ECL.

The Bank's Credit Risk Management department is responsible for assessing impairment on loans and receivables and a Valuation Team, comprised of the CEO, the Managing Directors of Finance, Risk Management, Corporate Banking and Personal Banking, reviews and approves the assessment.

Significant increase in credit risk

When determining whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group will consider reasonable and supportable information that is relevant and available without undue cost and effort, including both quantitative and qualitative information and analysis based on the Group's historical experience, expert credit assessment and forward-looking information.

The Group will primarily identify whether a significant increase in credit risk has occurred for an exposure by comparing:

- The remaining lifetime PD as at the reporting date; with
- the remaining lifetime PD as at initial recognition.

The framework aligns with the Group's internal credit risk management process, and includes a backstop based on delinquencies so that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due.

Measurement of expected credit losses (ECL)

ECL is a probability-weighted estimate of credit loss. Credit loss is measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contracts and the cash flows that the Group expects to receive).

ECL is discounted at the effective interest rate of the financial asset.

The probability of default (PD), exposure at default (EAD), and loss given default (LGD) inputs used to estimate expected credit losses are modelled on macroeconomic variables that are most closely related to credit losses in the relevant portfolio.

Details of these statistical parameters/inputs are as follows:

- Probability of default is an estimate of the likelihood of default within the next 12 months.
- Exposure at default is an estimate of the exposure at a future, unknown default date.
- Loss given default is an estimate of the loss arising upon default occurring at a given time.

Expected lifetime

The expected lifetime of loans is based on the maturity of the loans, according to the current contractual terms, and is measured in years. If the nature of a loan agreement provides that the expected lifetime differs from the maturity date of the loan, the lifetime is estimated based on the expected lifetime of the loan.

Notes to the Condensed Consolidated Interim Financial Statements

61. Changes to significant accounting policies (continued)

Use of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since initial recognition and its measurement of ECL. The Group then formulates a 'base case' view of the future direction of relevant economic variables and a representative range of other possible forecast scenarios based on advice from the Group's Risk & Finance Committee, the Bank's Economic Research department and consideration of a variety of external actual and forecast information.

The Group has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macroeconomic variables and credit risk and credit losses. These key drivers include e.g. interest rates, unemployment rates and GDP forecasts. Observed relationships between the key indicators and default and loss rates on various portfolios of financial assets are based on statistical analysis of historical data over the past 10 to 15 years. The economic scenarios used will be approved by the Group's Risk & Finance Committee.

The base case will represent a most-likely outcome and be aligned with information used by the Group for other purposes, such as strategic planning and budgeting. The other scenarios will represent more optimistic and more pessimistic outcomes.

Definition of default

The Group's definition of default is unchanged for the implementation of IFRS 9 and is consistent for all measurements of credit risk. The default definition is applied on an obligor level.

The Group considers a financial asset to be in default and the borrower unlikely to pay its credit obligations to the Group in full when one or both of the following conditions have been met: (1) the borrower is unlikely to pay its credit obligations to the Group in full without recourse by the Group to actions such as realising collaterals, and (2) the borrower is past due more than 90 days on any material credit obligation to the Group.

IFRS 15 - Revenue from contracts with customers

As of 1 January 2018, the Group adopted IFRS 15 using the cumulative effect method and as a result, comparative information has not been restated and continues to be reported under IAS 18 and IAS 11. The guidelines of IFRS 15 are applied retrospectively on contracts that are still valid upon initial adoption of the standard and the accumulated effect will be accounted for in the opening balance of equity 2018. The details of accounting policies under IAS 18 and IAS 11 are disclosed separately if they differ from IFRS 15. The impact of the implementation 1 January 2018 of IFRS 15 results in a reduction of retained earnings by ISK 344 million pre-tax.

IFRS 15 provides for the accounting treatment of revenue from sale of goods and services to customers, that is whether, to what extent and when revenues are accounted for. The core principle of IFRS 15 is that the time period in which income is recognised should be consistent with the transfer of the service to the customer.
